

to the **Collectif National Intervention Communiste**

Paris

Dear comrades,

On behalf of all Hungarian communists I send our best wishes to your Congress gathered to found a Party based on the principles of marxism-leninism and proletarian internationalism, a communist party.

This will become a significant contribution to the rebirth of revolutionary forces in France, forces able to organise the working people for the struggle against capital. The communist movement should be prepared for the moment when class conflicts are strengthened and the fight against capitalism turns into a face-to-face class war.

We, members of the Hungarian Workers' Party wish you every success in our common struggle! Let's held high the internationalist red banner of the working class!

Budapest, 18 October 2016

With comradely greetings

Gyula Thürmer

President of the Hungarian Workers' Party
